Subject: South Dayton Dump & Landfill - Work Plan -- EPA comments

Adam,

See attached work plan with EPA comments.

Regarding the meetings with each property owner and tenant to discuss the mitigation systems, we are looking to schedule these either the week of May 6 or May 13th. Probably looking at 7 or 8 meetings which would probably last no more than an hour. Will either week work for you? Maybe move on a Mon and then have meetings on a Tue and Wed. We could possibly have the meetings completed over a 2 day span.

Question for you. Who do you think should attend the meetings?

EPA OSC Steve Renninger

John Sherrard – START

Local Health representative

Adam Loney – CRA

CRA mitigation contractor representative??

Property Owner

Property Tenant

Anyone else?

John Sherrard

Civil/Env. Engineer – Senior Project Manager

Dynamac Corporation

3923 North Cliff Lane
